Dear Mr. Donahue:

Re: Modified Closure Plan - Van Waters and Rogers - Dallas
Solid Waste Registration No. 31657
Final Facility Closure

The Texas Water Commission has received the modified closure plan dated December 4, 1985, and a copy of the sworn affidavit of public notice of closure dated December 6, 1985. Our evaluation indicates the closure activities as planned are appropriate and should be adequate to assure proper closure of the drum storage area and distillation unit at the referenced facility.

Upon completion of the closure, certification must be submitted to the TWC by the owner or operator of the subject facility and by an independent Registered Professional Engineer that the drum storage area and the distillation unit have been closed in accordance with the referenced closure plan.

Please contact Sandra Anderson of the Hazardous and Solid Waste Enforcement Section if you have any questions regarding this closure.

Sincerely,

Bryan W. Dixon, P.E.

XVI. WASTE MINIMIZATION (narrative description)

This facility is permitted as a generator and a transporter. As a generator we collect like products from our hose drippings and mix them with similar products and sell them. Example: We collect mixed alcohols from our hose dripping when we receive bulk shipments. These mixed alcohols are then sold into the printing industry for clean-up. Likewise, we save and sell mixed hydrocarbon solvents into the paint industry as a spray gun cleaner.

Our off spec virgin material and tank truck washings cannot be minimized.

We do not have any manufacturing processes at this facility.

Dear Mr. Boultinghouse:

We are counsel for Van Waters & Rogers Inc. (VW&R) as well as Univar Corporation. VW&R is a Washington corporation, wholly-owned by Univar. VW&R has as its legal address: 1600 Norton Building, Seattle, Washington 98104; and has as its operating headquarters 2600 Campus Drive, San Mateo, California 94403-2598, telephone (415) 573-8000.

In connection with the financing of this acquisition, Univar was required to transfer the assets of its operating division, Van Waters & Rogers, to DSW, Inc.

We are now completing the transfer of the above-referenced facility by enclosing to you an amended Form 8700-12. Also, enclosed please find a letter requesting this transfer by James Bernard, President of Univar Corporation. Mr. Bernard is also Vice President of Van Waters & Rogers Inc.

Re: Name Changes for Univar USA, Inc. Texas Branches
Tied to EPA Waste Handler Site Identification Numbers

To Whom It May Concern:

I checked the EPA web site located at <http://www.epa.gov/epahome/comm.htm> under Search Your Community and found that under RCRA Info most of the location names listed for our Texas branches were incorrect. Our corporate name was changed from Pioneer Chemical, Inc. and Van Waters & Rogers, Inc. to Vopak USA, Inc. on 4/1/01 and then again from Vopak USA, Inc. to Univar USA, Inc. on 7/1/02. The name of each branch location is now Univar USA, Inc. We are not operated by Pioneer Chemical, Inc., Van Waters & Rogers, Inc., or Vopak USA, Inc. We have written letters and submitted forms to both the TNRCC and the EPA, but somehow the information has not gotten to whoever revises the information on the EPA web site.

Please forward the correct name change information for our Texas Branches to the EPA Region 6:
